Hi, sorry for bothering you again.

Can you add this package: <https://admin.fedoraproject.org/pkgdb/package/rpms/blueman/>

Thanks!

You can reuse the SRPM packages from my repo on Fedora COPR:

<https://copr.fedorainfracloud.org/coprs/scx/blueman/>

SPEC: <http://copr-dist-git.fedorainfracloud.org/cgit/scx/blueman/blueman.git/tree/blueman.spec?id=3d61f63d80d5d1d024f332209bae7b663eab96f8>

Actually, it looks like there are some problems here:

blueman-applet

Traceback (most recent call last):

File "/usr/bin/blueman-applet", line 18, in <module>

from blueman.Functions import set_proc_title

File "/usr/lib/python3.4/site-packages/blueman/Functions.py", line 29, in <module>

import gi

Ok, it requires python34-gobject.. but for some reason also selinux to be off. Kind of a downer.

I've removed it from my repo for now.
